

## Our REACH commitment

Dear partner,

With reference to the EU REACH Regulation, our customers are asking about our position with regards to this legislation and the possible effect upon the continued supply of substances.

Azelis Group has kept closely in touch with developments on "best practices" for pre-registration. Additionally, we have nearly completed the preliminary identification of substances involved with all our Operating Azelis Partners.

Trusting that ECHA will acknowledge the stability of the essential IT modules in the next coming weeks, **Azelis is determined to carry out bulk pre-registrations for all its Group companies in September 2008.**

This pre-registration activity will remove our concern of possible sudden supply interruption and will ensure that business continuity with our customer is preserved, also after the Pre-Registration deadline of December 1<sup>st</sup> 2008.

The Azelis Group is committed to provide clear communication to our customers on future progress and we will be regularly updating you of our position.

If in the meantime, if you consider that any product we supply requires short-term in-depth evaluation regarding REACH, we are happy to discuss this with you in detail in order to clarify the current situation.

July 2008,

Hans Udo Wenzel  
Chief Executive Officer

Stefano Colicchia  
Corporate SHEQ Director
